Beginning on Monday, March 23, SoutheastHEALTH will only allow one visitor per hospital patient per stay in the following areas:

- **End-of-life care:** The patient’s clinical team can make exceptions at their discretion.
- **ICUs:** No visitors except end-of-life care.
- **NICU:** Only the parents/guardians of the neonate are allowed to visit one time per day. If the baby has only one guardian, one additional support person older than 18 years may be authorized for visits. The designated individuals will remain the assigned individuals throughout the duration of stay.
- **Pediatrics:** One parent or guardian per day.
- **Labor and Deliver and Postpartum:** One support person for labor and delivery patients.
- **Procedural Areas:** One visitor who has been identified as the caretaker and designated driver for the patient. This individual may wait in the designated waiting area of the procedural department.
- **Emergency Departments and Urgent Cares:** One visitor to be the supportive caretaker and designated driver.
- **Visitors in the areas of the hospitals not mentioned above will not be allowed.**
- **Visitors meeting the above criteria may visit during normal visiting hours and must also follow established protocol:**
  
  - Visitors will be screened for COVID-19 symptoms at entry.
  - No visitor will be allowed into our facilities who shows symptoms of suspected COVID-19.
  - Visitors are asked to limit their movement within the hospital to only patient’s room and public restrooms.
  - Must use good hand hygiene during your visit.
  - For the safety of everyone at the hospital, do not enter the hospital if you are ill.

**Please note:** No one under the age of 18, with the exception of those seeking medical care, will be permitted into SoutheastHEALTH facilities.
